

DG-520

concentrated mesh & fabric degreaser

DESCRIPTION

DG-520 is formulated with a powerful combination of surfactants and emulsifiers that rapidly penetrate grease and oil. DG-520 dissolves grease on new screens and prepares them for the first use. Use DG-520 on all newly stretched screens, as the last step of reclaiming and any time capillary film is used.

ADVANTAGES

- Fast, efficient removal of grease and oils
- Biodegradable
- Low cost per usage
- Easy to use & safe for employees
- Drain safe

DIRECTIONS

Dilute DG-520 at 1:20 (chemical : water). Apply DG-520 with a brush and thoroughly rub product onto both sides of the screen. Let stand for 1 minute and rinse thoroughly with water. Make sure all of the DG-520 has been removed from screen. Do not allow DG-150 to dry on the mesh. Use DG-520 on all newly stretched screens, as the last step of reclaiming and any time capillary film is used.

TYPICAL PRODUCT PROPERTIES

Appearance -----	Clear, light green liquid
Odor-----	Unscented
pH -----	12.0
Flash Point -----	None
Specific Gravity -----	1.02
Weight, per U.S. gallon -----	8.5 lbs.
Stability -----	Excellent
DOT Shipping -----	Non-hazardous

AVAILABLE PACKAGE SIZES

55 Gallon Drum -----	#01643-D5505
5 Gallon Pail -----	#01643-P5010
4x1 Gallon Case -----	#01643-C4201
12x1 Quart Case -----	#01643-C3002
